DETAILED ACTION

Serial Number: 10/621773 Attorney's Docket #: 740819-982
Filing Date: 7/17/2003;

Applicant: Gilleo

Examiner: Alexander Williams

Applicant's election of species I (figures 1-7) (claims 1 to 10, 14-19, 24 and 25), filed 7/28/04, has been acknowledged. Applicant's grouping of the species are found persuasive.

This application contains claims 11-13, 20-23 and 26-28 drawn to an invention non-elected with traverse. Claims 1-3, 5, 14-18 and 24 are generic to all species.

A further restriction of species I, figures 1-7 is requirement.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1A, figure 1

Species 1B, figure 2

Species 1C, figures 3 to 6

Species 1D figure 7.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-3, 3, 14-18 and 24 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

Art Unit: 2826

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander O Williams whose telephone number is (571) 272 1924. The examiner can normally be reached on M-F 6:30-7:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (571) 272 1915. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
